

# PHOTOS STORYBOARD STATE MACHINE

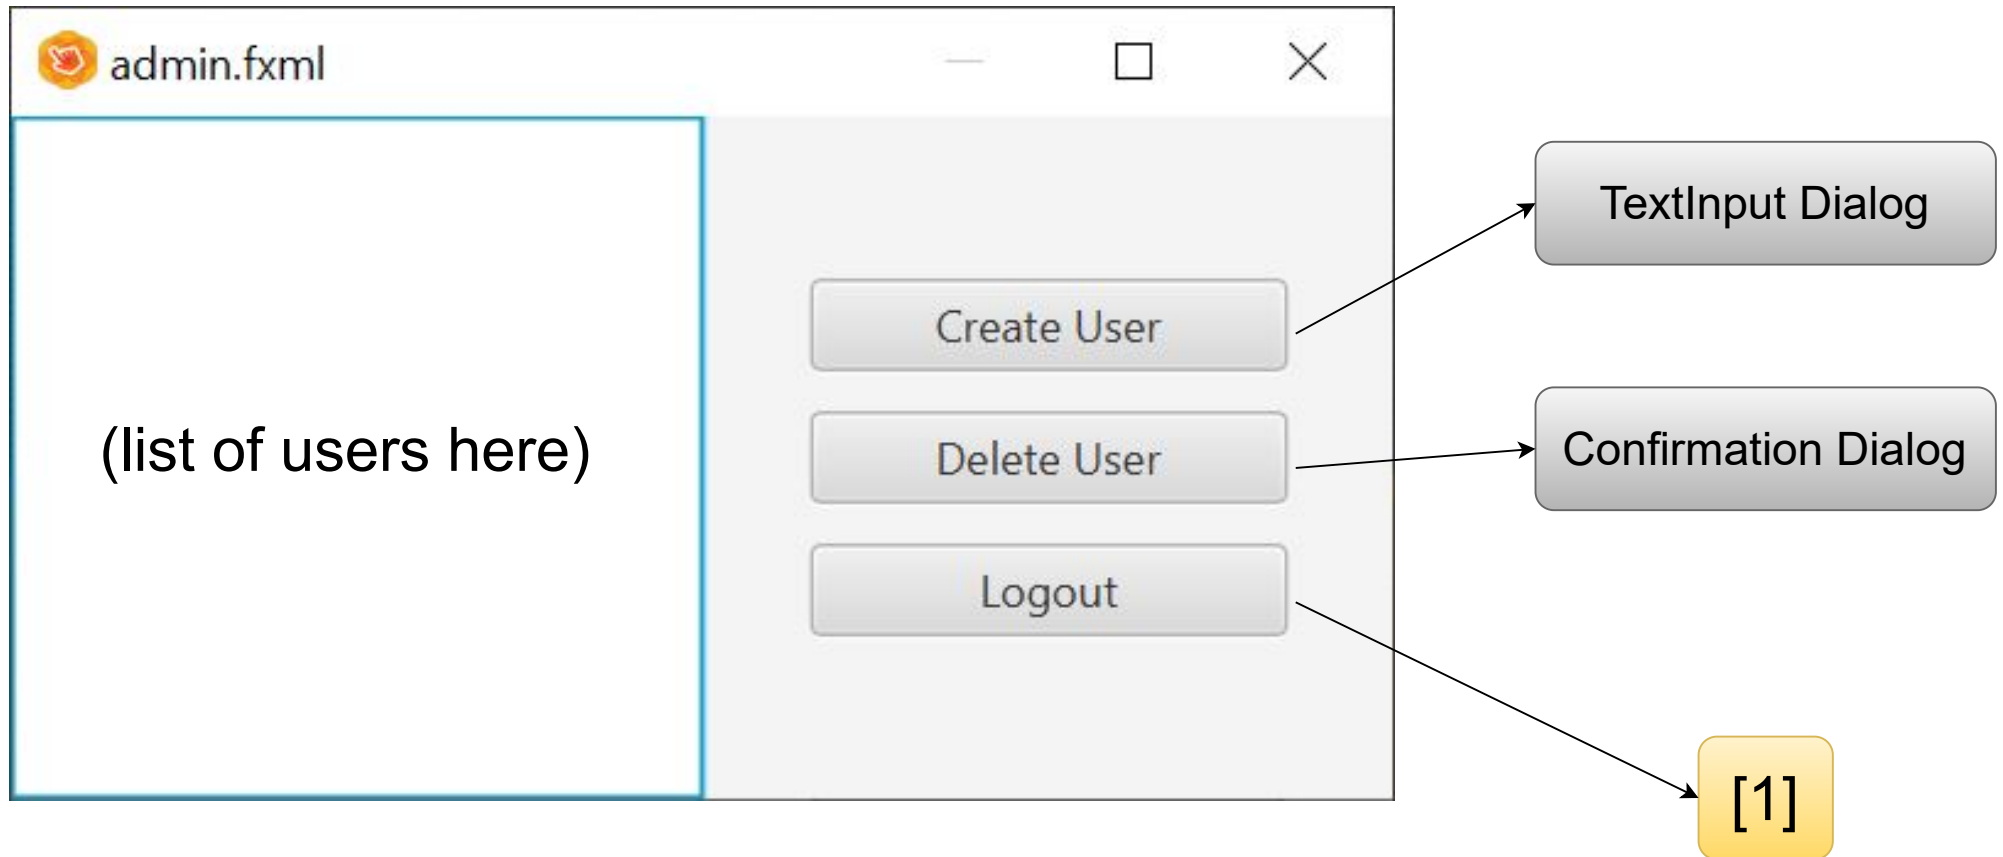

**NOTE:** A bi-directional arrow between a main form and a dialog implies that the user will return to the main form immediately after the dialog closes.

## [6] PHOTO DATA ENTRY DIALOG

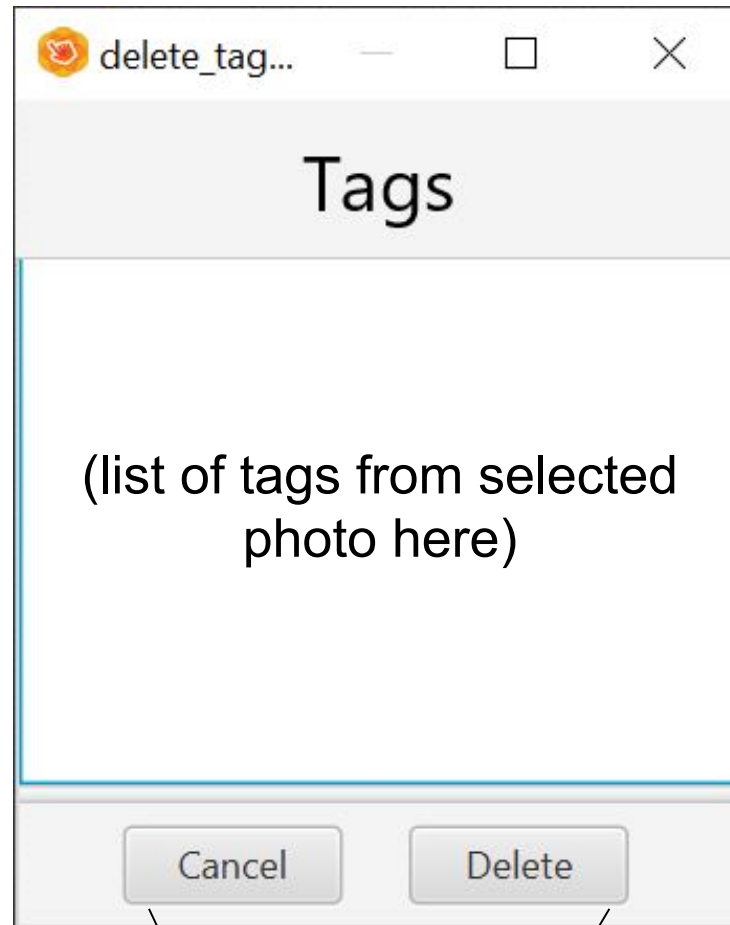

The image shows a screenshot of a JavaFX window titled "add\_photo\_dialog.fxml". The window contains three text input fields and two buttons. The first field is labeled "Photo location (ex. C:\Users\Name\Desktop):" and has a blue border. The second field is labeled "Photo name:". The third field is labeled "Location:". Below the fields are two buttons: "Add Photo" and "Cancel".

Annotations below the window indicate the actions of the buttons:

- An arrow points from the "Add Photo" button to the text "adds photo to album".
- An arrow points from the "Cancel" button to the text "does nothing".

Both arrows point towards a yellow box at the bottom containing the number "[5]", indicating a common next step or state.

## [7] DELETE TAG FROM PHOTO DIALOG

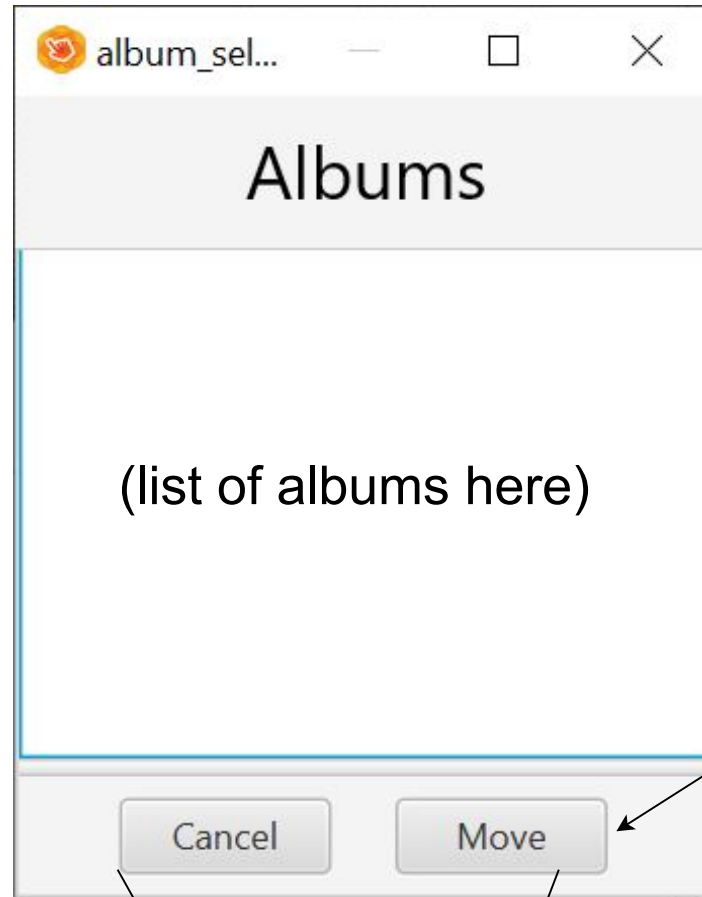

does nothing

removes tag

[5]

## [8] ALBUM SELECT DIALOG

Shows "Move" if coming from the "Move Photo..." command OR "Copy" if coming from the "Copy Photo..." command. Clicking results in the corresponding command being executed.

does nothing

moves OR copies photo
